DATA SOURCES

- Source: Statistics Canada, International Accounts and Trade Division, custom tabulation for York Region Economic Development, 2023 data
- York Region Employment Survey, 2025
- Analysis by York Region Economic Development

METHODOLOGY

- All values are in Canadian dollars
- The number of establishments = 0 means the counts were suppressed
- Any blank data points mean no data available
- Industry is determined on the establishment basis
- One establishment can trade with both the United States and non-US. For example, it can export to both the United States and China. Therefore "Total" does not equal "US" + "non-US" for counts, but it does for value. Value may not add to totals due to rounding.

SUMMARY

According to Statistics Canada 2023 data, nearly 2,900 business establishments in York Region export goods and services with an annual total export value of $14.5 billion. Most exports are to the U.S. with 81% (or $11.8 billion) of total exports value, remainder of the exports are to non-U.S. countries with 19% ($2.7 billion).

Manufacturing is by far the largest export sector in York Region with 82% (or $11.9 billion) of total export value and 87% share of the overall U.S. destination. Wholesale trade is the next largest export at $1.7 billion (12%) of the total export value.

Transportation equipment manufacturing (including automotive parts) represents the largest share (22%) of the total manufacturing sector export value. Exports of plastics and rubber products and fabricated metal products are also linked to the wider transportation equipment sector, with shares of 10% and 9% of the total export value, respectively.

Employment by exporters is estimated at approximately 44,000 jobs, representing nearly 7% of jobs in the Region. Over half (57%) of those jobs are with large to very large businesses (greater than 100 employees). Medium businesses (20-99 employees) account for 30% of all jobs and the remaining 13% are with small businesses (less than 20 employees).

In 2023, York Region's total goods imports amounted to $45.4 billion. Of these, over 62% ($28.1 billion) originated from non-U.S. countries, while the remaining 38% ($17.3 billion) came from the U.S. The largest importing sector in the Region was wholesale trade, which accounted for 76% ($34.3 billion) of the import value. At the enterprise level, over 9,100 establishments in the Region were engaged in import activities.
